

New SafeSport and U.S. Soccer Adult Athlete Requirements Mandatory

Member Club Administrators, due to changes in the U.S. Center for SafeSport and U.S. Soccer Federation policy, athletes 18 or over who may interact with Minor Athletes, have more responsibilities to your Club/CJSA, under state and federal law than they had as a minor.

What does this mean?

Your players that are 18 or 19 or will turn 18 during a current playing season **and** play on a team with minor athletes (under age of 18) are required to take the SafeSport Core Abuse Prevention training in order to participate. Players who are currently 17 years old may get a head start on this requirement and take the training with parental consent prior to their 18th birthday (see further down this document)

How to manage these requirements:

1. Advise all players and their parents in this age range of the new requirement, and provide them with the Help Guide guide below
 - The email address on file for the player and club president will also get an automated message stating that they need to take the training, 30 days prior to birthdate. The player will not be able to take the training until their 18th birthday, UNLESS they follow the instructions below
2. The member organization (town program, club) will be responsible for ensuring athletes that are 18, or 19 or will turn 18 during a current playing season take the SafeSport Core Abuse Prevention training.
 - **Players will take the SafeSport Core training and upon successful completion will be issued a certificate.**
 - **This certificate must be uploaded to the registration records of the player**
 - **Safesport will be verified only by a district registrar or the state office**

SAFESPORT ABUSE PREVENTION

TRAINING Help Guide for Players 18+ - 17 with Parental Consent

Athletes that are 18 or will turn 18 during a current playing season and play on a team with minor athletes must take SafeSport Core Abuse Prevention training. Players who are currently 17 years old may take the training with parental consent.(see further down this document)

- SafeSport is a yearly requirement; the first course is Core training (1.5 hours).
- Adult Athletes that continue to participate and will again be on a team with minor athletes, must complete a refresher course (20 minutes) beginning the year after completing the SafeSport Trained Core training or prior to returning to play (SafeSport training must not expire while playing on a team with minor athletes). If the makeup of a team is such that ALL players are 18 and over and there are NO minors, you do NOT need to complete the training
- If you are a referee and have taken the SafeSport Abuse Prevention 90-minute CORE training, it is the same training and can be approved by your organization.

To create your SafeSport account follow the steps below. If you are 17, you must have parental consent.(see further down this document)
